## HOLOCAUST IN INDIANA

Prominent Attorney and a Boy Are Burned to Death.

## OTHERS WERE HURT.

The Residence of Dr. Joseph Haas, a Leading Indianapolis Physician, Is Destroyed and Attendant Results Terrible.

Indianapolis, April 13.—Nathan Morris, a well known attorney, and Frank Haas, the twelve-year-old son of Dr. Joseph Haas, were burned to death, and Mrs. Joseph Haas, Miss Belle Haas, Miss Rose Haas, Louise Haas and Grace Lemon, a governess, were injured more or less seriously, in a fire which destroyed the residence of Dr. Joseph Haas. The fire originated in the furnace while the family was asleep on the second floor. From the position of Mr. Morris' charred body when found it was evident he was endeavoring to get the family out of the room when overcome by smoke and flames. The firemen succeeded in saving the other members of the family, after heroic work, so rapidly did the flames spread. The body of Frank Haas and the unconscious governess were found on the back stairs. Louis Haas broke his leg jumping from a second floor window.

Mr. Morris was the senior member of the well-known commercial law firm of Morris & Newberger, born in California in 1857 and has practiced here since 1877.

The injured members of the Haas family are still in a serious condition, though it is believed all will recover. Mrs. Haas and one of her daughters are suffering, and it was feared at first that they had inhaled flames. Dr. Haas, one of the best known physicians in the city, was at Lima, Ind., visiting his son at the military school there.

## WORK OF TORNADO.

One Killed, One Fatally Injured and Several Others Badly Hurt.

Springfield, Ill., April 13.—One death, a fatal injury and a score or more of injuries resulted from a tornado that swept over Logan, Dewitt and Platt counties Sunday afternoon. In the Halsadar settlement a little farming community, three miles from Atwood, Platt county, the home of Clifford Halsadar was demolished and after the storm Halsadar's infant son was found dead three hundred feet from the place where the house stood. Mrs. Halsadar was hurled across the village street and fatally injured. Mrs. J. B. Martin's home was destroyed and several guests were painfully injured. Deer Creek, in Logan county, where the storm first struck, was swept dry of water. Reports from this district state that three houses were destroyed and a number of people more or less injured.

## CRIMES AT BUFFALO.

Boy Murdered, Woman Wounded and a Couple of Suicides.

Buffalo, April 13.—A shooting affray in which a nine-year-old boy was killed, and a woman mortally wounded, an attempted murder, two suicides and two attempts at suicide that may result fatally, occurred in this city Monday night.

Joseph Kwaimewski, fifty-one years old, a representative Polish citizen, is locked up at police headquarters, charged with shooting his landlady, and killing his own boy.

George Denying had been separated from his wife, Sunday he tried to induce her to resume marital relations. She refused and he shot at her. She fell in a faint, and believing he had killed her, Denying committed suicide.

Miss Mary Beers, twenty-two years old, an actress, committed suicide. Bertha Vaughan, twenty-three old, swallowed a dose of vitriol. Her condition is serious.

Miss Blanche Murphy, after a quarrel with an unknown man, swallowed a quantity of laudanum. She is still alive.

## FOUR FATALITIES.

Result of a Collision Between Trains Seventeen Miles from Halifax.

Halifax, N. S., April 13.—Four persons dead, two fatally hurt, at least one missing and several others slightly injured is the record of a head-on collision on the Inter-Colonial railway which occurred near Windsor Junction, seventeen miles from Halifax. The poles and telegraph lines along the roadside were wrecked and this city was cut off from communication with the outside world for hours. The trains in collision were the Canadian Pacific railroad express from Montreal and Boston for Halifax, and a fast freight from Halifax for Montreal.

## Lightning Kills Steers.

San Angelo, Tex., April 13.—Three steers were struck by lightning and killed during Thursday night's storm. They were in John Hassard's herd of cattle which had been brought near town for shipment.

## COULD WAS PLEASED

Says That the West Is Enjoying an Era of Prosperity.

## MONEY IS NOT SCARCE

Banks Are Holding Their Own Balances in Their Vaults and They Will Not Have to Draw Upon New York.

Lakewood, N. J., April 13.—After a careful survey of conditions in the west, George J. Gould, who has returned from a trip over the Missouri, Pacific and Wabash lines, is convinced that the present era of prosperity the west is enjoying will continue for at least another year.

"In all my experience in the west," Mr. Gould said, "I have never seen wheat look as well as it does to-day. It is still too early to speak of corn or cotton, but as the soil is thoroughly water-soaked these crops ought to thrive amazingly. The railroads won't have any trouble in moving the great wheat crop, but I think we will all be short of cars in the fall if there is a big corn crop."

"The physical condition of the western roads was never better than now."

"I heard no talk of money shortage while I was in the west. The banks are holding their own balances in their vaults, and they won't have to draw on New York for money that crops. From what I saw I believe this practice of drawing on New York as it is called, will be an occurrence in the future. To lend bankers have their own money to their own people, and as to should get so high in Wall street. From all indications I expect a full year of prosperity is ahead."

Mr. Gould referred to St. Louis exposition in very enthusiastic terms. He visited the grounds and was very much impressed.

"I think it will be the best fair ever held," he said. "Two things in connection with the fair are brought to the attention of people of St. Louis. One is that the city has not awakened to the great importance of adequate hotel facilities. Another important thing is the lack of adequate transportation facilities to and from the fair grounds. St. Louis seems to have done absolutely nothing in this matter."

## HAS PAVED.

International Agricultural Congress in Session at Rome.

Rome, April 13.—The International Agricultural congress was inaugurated at the capital before King Victor Emanuel and Queen Helena. About 1300 delegates of present American representatives, Daniel E. Salmon, chief of the United States bureau of animal industry, and Henry E. Alvord, chief of the dairy division of the United States department of agriculture, have yet arrived.

Marquise Capelli, president of the congress, in his opening speech criticized the protectionism of certain American countries, and said he foresaw their attitude would change with increase of their population to the average of those of European countries.

## HARD RAIN.

Two Husbands Struck by Lightning and a Man Rendered Unconscious.

Knoxville, Tenn., April 13.—An unusually hard rainfall commenced here Sunday night. The weather bureau reports 1.96 inches of rain. The Tennessee river and local tributaries are rising, and it is credited that in twenty-four hours the river will have reached eighteen feet here. Two houses were struck by lightning, and Samuel Oglesby, who was sleeping in a bed in one house, was stricken unconscious.

## FROST AND SNOW.

England Experienced Bitter Cold Weather All Day Monday.

London, April 13.—Severe weather has spoiled the Easter bank holiday. It is bitterly cold, four degrees of frost being registered in many parts of the country. This was followed by heavy snowstorms throughout the north and midlands, while some snow fell in London, and even as far south as Dover.

## Killed Wife and Cut His Throat.

Holyoke, Mass., April 13.—Narcisse Gauge, aged thirty-eight years, while insane, killed his wife at his home and cut his own throat. He is likely to die. The man had recently been acting strangely. It is thought that he became angry with his wife for some reason and struck her with a flat-iron, breaking in her skull, and then cut her throat with a bread knife.

## Ching Grand Secretary.

Peking, April 13.—Prince Ching, president of the foreign office, has been appointed grand secretary in succession to the late Yung Lu.

### Mexicans Say Rain Kills Weevil.

Somebody at El Campo sends  
the Eagle the following, clipped  
from some newspaper, name not  
given:

"Mexico is the home of the boll  
weevil, that predatory pest that  
has devastated the cotton crops of  
this section for the past two years,  
and that made cotton culture in  
Mexico an impossibility. The  
Mexican people who are familiar  
with the pest say that a prolonged  
wet season, similar to the one that  
has prevailed in Texas this spring,  
invariably kills weevil, grubs and  
egg. Excessive rains in the early  
fall or early winter have no effect  
on them; but later, in the early  
spring, they are in a stage easily  
affected, and the decaying vegeta-  
tion which protected them becomes  
saturated and they are destroyed.  
After such continuous rains, though  
it necessitates later planting than  
is desirable, cotton is never ravaged  
by the weevil, and if the rains are  
reasonable for the growing plant a  
good crop is assured."

Madisonville, now having a  
railroad, knows that to get busi-  
ness she must also have good dirt  
roads, and her business league is  
considering the project of making  
two roads across the county, inter-  
secting at the county seat.—Bryan  
Eagle.

The Eagle has been calling at-  
tention very frequently of late to  
the determination of Madison  
county to build up through the  
medium of good roads. The secret  
of it seems to be that the Eagle is  
trying to arouse its own people to  
their importance. With a railroad  
and good roads Madisonville would  
be apt to give Bryan a race. The  
Eagle knows it.—Galveston News.

the preach of Rev. Hamlett made  
a fine impression. Fourteen persons  
offered for prayer at the night service.  
Rev. Hamlett preached on  
"Sanctification" at the morning ser-  
vice yesterday and on "Faith" last  
night.

Some of the local business men  
are talking seriously on the sub-  
ject of street cleaning. They think  
that with the amount of taxes they  
pay the city ought to make some  
provision at least to assist in op-  
erating the street sprinkler already  
provided by the city. Expenses  
might possibly cut down some-  
where else to provide funds if they  
are not available otherwise. It looks  
like the property owners, business  
men and the city might unite on  
some plan to keep the sprinkler  
moving. Bryan is sitting on too  
many city airs otherwise not to look  
after such a necessity this.

The Easter services at the different  
churches Sunday were full of the  
spirit of the resurrection, which has  
animated and inspired him in the  
world for so many centuries. Roses  
and Easter lilies, bursting into per-  
fect bloom, exhaled their perfume  
upon the quiet air of the sanctuary.  
Without the verdure of spring and  
the songs of feathered choir gave  
testimony of an all-wise Providence.  
Prayers, sermons, songs and deep-  
toned organ notes gave unspeak-  
able praise and all hearts were glad  
in the sweetness of the Eastertide.

A freight wreck occurred at Mil-  
lican Saturday. A section hand in-  
thoughtedly opened a switch and an  
extra freight approached the depot,  
throwing the train on the siding,  
which was filled with coal cars. The  
engine was moving with considerable  
speed and struck one of the coal cars,  
throwing it against the bay window  
of the depot, causing slight damage.  
The engine was demolished and  
several cars dented. The engineer  
and fireman jumped and the former  
sustained injuries of the knee and  
spine.

Passenger train No. 8 of the H. &  
T. C., passing Bryan at 9:55 yester-  
day morning, had an accident near  
Cypress. The engine either blew up  
or was in some way injured, both  
side rods were broken and the fire-  
man fatally injured. Another engine  
was secured to pull the train into  
Houston.

J. T. Maloney of Palestine was in  
the city Sunday and returned home  
accompanied by his wife and baby.  
Mr. Maloney took a prominent part  
in the late city election at Palestine,  
in which Mayor Bowers was re-  
elected by a splendid majority after  
a very heated campaign. Mayor  
Bowers is well known here as an  
official of the I. & G. N.

G. M. Brandon, W. S. Howell, W.  
H. Oliver, M. Nagle, A. L. Banks,  
J. T. Hanway and Paul M. Raysor  
left yesterday for Waco to attend  
the fourth district meeting of feder-  
ated women's clubs. Mrs. Sims will  
preside at the meeting.

Miss Fannie Morgan, principal of  
the Millican public school, was a  
visitor to Bryan yesterday. Her  
school closed Friday, after a suc-  
cessful term, and she returned to  
her home in Navasota yesterday af-  
ternoon.

Bryan was in no sense behind the  
times in new millinery, dresses,  
spring suits, etc. Sunday. The show-  
ery weather, however, kept the wear-  
ers guessing, and the pleasures of  
the day were not unmixed with ap-  
prehension.

### Home, Sweet Home.

From a neighboring paper comes a  
story that sounds like an Arabian  
Nights tale, yet its authenticity is  
vouched for. The exchange gives a  
description of nine little ponies of the  
Shetland variety who, at a command  
from their trainer, play with remark-  
able skill the beautiful old song,  
Home, Sweet Home. They accom-  
plish the feat by means of bells at-  
tached to their heads. It is, indeed,  
remarkable what can be taught dumb  
animals. These little musicians are  
members of the Floto shows which

Postmaster General Has Nothing to Say Regarding Investigation

Washington, April 13.—Postmaster General Payne has returned to Washington from a West Indian cruise with Secretary Moody and party. Mr. Payne's arrival was anticipated with considerable interest in view of the investigation of affairs of the postoffice department which has been in progress by his direction during his absence. Mr. Payne, however, had nothing to say regarding the investigation. He spent the morning at his hotel, going over matters that accumulated during his absence. The investigation continues in the meantime, and a large corps of postoffice inspectors, numbering twenty-seven, are making a searching inquiry into the various phases of the investigation.
